- With a \$600 million budget shortfall this year, Oklahoma legislators have many tough decisions to make. But one decision should be easy: halting a tax cut that was never meant to take effect in these conditions.
- The tax cut was only supposed to kick in if revenues are growing, but a badly written bill from last year is triggering a tax cut when the economy is faltering and Oklahoma is looking at even more cuts to vital health services.
- How can lawmakers justify yet another tax cut when Soonercare may be forced to slash payments to health care providers up to 18 percent and seven rural hospitals have declared bankruptcy just in the past five years.
- TELL Oklahoma legislators: Do the financially responsible thing and halt the tax cut. Balance the budget without cutting investments in life-saving health care services.
